

# COSHH RISK ASSESSMENT

Catering Descaler (5 litre)

Product Code: BBO25-5

**DANGER**

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
<b>DELIVERY</b>			
Packaged in 5 litres polythene bottle with integral carrying handle.	Risk of spillage if the container is dropped. Risk of injury to user if dropped. Risk of strain injuries if not handled correctly.	Trained employees should handle only single container at any given time. Take care not to drop bottles. Ensure that the cap is secured at all times.	Transfer bottles to store immediately following delivery.
<b>STORAGE</b>			
Store product securely in a cool, dry, well ventilated area. Product must be kept stored in its original container. Keep tightly closed when not in use.	Reacts with concentrated alkaline materials. Chlorine releasing materials will liberate toxic chlorine gas. Minimal risk of spillage if caps are firmly in place. Risk of emission of noxious fumes if involved in a fire – product itself is not classified as flammable.	Store away from hypochlorite and other oxidising agents. Restrict access to storage areas to authorised personnel. Keep the store well ventilated. Keep a spill clean-up kit nearby.	Use oldest stock first. Make regular checks to ensure that containers are not split or blown/damaged. Make regular checks to ensure that storage area is clean, dry and well-ventilated. Never decant concentrate into an unlabelled container.
<b>USAGE</b>			
Product is diluted according to manufacturer's instructions and added to wash tank of dish/glass washing machine or bain maries etc.	Risk of severe skin burns and eye damage. Risk of ingestion. Risk of inhalation. Risk of spillage onto floor and into drainage system.	Handle the containers with care. Wear Personal Protective Equipment. Ensure that the container is returned to the store when not in use. Always read the manufacturer's instructions prior to use. Ensure that all spillages are wiped up immediately.	Provide employees with PPE as follows: <ul style="list-style-type: none"><li>• Household rubber gloves</li><li>• Chemical splash goggles or face shield.</li></ul> Ensure that operatives are aware of location of First Aid facilities and personnel.
<b>DISPOSAL</b>			
Discharge used solutions to drain. Small amount (less than 5 litres) of unwanted product may be flushed with water to sewer. Larger volumes must be sent for disposal as special waste.	Small risk of skin or eye contact. Risk of contamination with other substances.	Wash out the container using plenty of water and consign to normal waste. Do not store any other material in the empty container. Ensure that the product is exhausted before disposal.	Ensure that all operatives wear Personal Protective Equipment at all times during disposal.
