USE AS DIRECTED

PREMIUM Carpet & Upholstery Cleaner is a powerful and effective product that will cut through the toughest soil build-up. The unique cleaning process of **PREMIUM Carpet & Upholstery Cleaner** is achieved by "Breaking Down" the soil binders without the use of Enzymes, Detergents or Solvents.

Use **PREMIUM** to clean Carpets, Upholstery and Curtains made from Natural and Synthetic Fibres.

ENVIRONMENTALLY SAFER - This product meets the environmental standard for industrial and commercial cleaning products based on its reduced human and aquatic toxicity and reduced smog production potential.

CONTAINS: Non-ionic surfactant, water softening agents and natural degreasers.

DIRECTIONS: Mix with Hot or Cold water.

Extraction Systems: Dilute 1:5 – 1:32 (200ml/L - 32ml/L) Use as pre-spray. Scrub with soft shampoo brush or contra rotating brush machine. Rinse with fresh water.

Upholstery Cleaning: Dilute 1:5 – 1:20 (200ml/L - 50ml/L) Use as pre-spray. Lightly scrub with soft upholstery brush. Absorb soil residue with clean damp terry towel or rinse with fresh water.

Encapsulation / Bonnet Cleaning: Dilute 1:5 – 1:32 (200ml/L - 32ml/L) Use as pre-spray. Absorb soil residue with bonnet pad.

Powder Cleaning: Dilute 1:5 – 1:32 (200ml/L - 32ml/L) Use as pre-spray. Absorb soil residue with powder.

SHELF LIFE: Indefinite.

CONTAINS: Nonionic surfactant, water softening agents and natural degreasers.

CAUTION: Do not use on varnished, painted surfaces or leather. This product will strip protective finishes from floor surfaces if allowed to puddle.

PRECAUTIONS: Wash hands after use to avoid skin drying out. In case of contact with eyes, flush with plenty of fresh water. If swallowed, rinse mouth with plenty of fresh water. If irritation persists, seek prompt medical advice.
